

Assignment 2

If you have any questions, come to Office Hours on Wednesday from 7-9pm at the Link *or* post on Lore and we'll answer them there.

Required Readings for All Parts

- [Mozilla's Getting Started With CSS \(All Bullets\)](#)
- [How Browsers Work - Layout](#)
- [How Browsers Work - CSS 2 Visual Model](#)
- [How Browsers Work - Positioning](#)
- [Box Sizing](#)
- [Web Platform Documentation](#)
- [Chrome Developer Tools](#)

Part 1

Make your portfolio visually appealing! This includes:

- Navigation bar on the top.
 - It should have internal links to your personal backstory and your work/education history.
- The headings should have proper visual hierarchy.
- There should be a pretty background.
- Add a snippet of your proudest programming code (suitably formatted).
- The links to the social media sites have to be images of the respective sites they show.
- Host the page on Dropbox.

Save the url of the hosted page as `portfolio.txt`.

Part 2

Please complete this [quiz](#) and take a screen shot of your score. Yes, it is okay to repeat the quiz.

Save the screenshot as `score.jpg`. Bonus: submit an additional picture were you score 13/12 questions correctly. Don't use any photo editing software. (Hint: Chrome developer tools)

Part 3

Open `index.html` in chrome. Complete the quiz and copy the score code you receive at the end.

Save the code as `code.txt`.

Submission

Zip `portfolio.txt`, `score.jpg`, and `code.txt`. Submit them to Lore as `[netid]-assignment-2.zip`.
